

Shared Day Companies for unplaced students of 2021 batch

Dear Students,

Further to the Placement Policy documented circulated to all the students of 2021 passing-out batch, we wish to inform you that the **“Shared Day Companies” will be visiting our Campus tentatively in the last week of September / 1st week of October 2020.**

Tentative Scheduled of “Shared Day Companies” & eligible branches:

1. Cognizant: Last week or September or 1st week of October 2020 (for BE & ME- All Branches)
2. Infosys: Last week or September or 1st week of October 2020 (for BE & ME- All branches)

Participation of the other IT companies such as Accenture, Wipro & IBM India on the ‘Shared Day’ model has not confirmed yet, (they may or may not visit subject to company’s plans).

Eligibility criteria and other details of all the shared day companies will be notified through the Placement Portal from time to time, on receipt of the confirmation from the company. Accordingly, all the interested & eligible unplaced students should register their names for each companies on the Placement portal as per the time given in the notices.

Details of Shared Day Model:

Shared Day: The 'Shared Day' Companies would be conducting their selection process individually on separate dates.

Process: Unplaced Students can apply for all the shared day companies wherever they are eligible and interested. Companies will conduct their recruitment process on specified dates, but do not declare the results on the same day. They will share the list of selected students to the Institute later on.

Announcement of Results: After completion of selection processes by all the companies sharing the Day, results of all the companies will be declared and shared with the students on a specified date. The date of the result announcement will be notified later.

Choice Form: After announcing the results, the students selected in multiple shared day companies have to choose one Company out of their selections & submit the choice from in the Career Services on the same day.

As a special case, companies visiting on the shared model will not be counted in the total 15 companies allowed for students as per the Placement Policy. The ‘Shared Day’ companies will be over and above on the allocated 15 companies.

Therefore, all the unplaced students are once again strongly advised to actively and enthusiastically participate in the shared day company processes, give their best performance and see that they are selected.

Further in this regard, we once again would like to inform all the students that the prevailing Global / Indian economic Industrial scenario continues to be very critical and yet to pick up momentum. As a consequence of the same, the competition for campus selections is becoming more and more severe & challenging day by day for the limited opportunities that are coming-up.

This current critical Industrial scenario makes it highly essential for the students to grab the available opportunities provided by the visiting “Shared Day Companies”, rather than waiting for any particular future company whose visit would be uncertain as of now.

In view of the above, all the students should note the following and take all the necessary actions accordingly:

Attend the forthcoming campus recruitment process with thorough & serious preparations on:

Aptitude / On-line Tests
Group Discussion skills
Interview skills
Communication / Presentation skills
Subject Knowledge / fundamentals / concepts / applications
Project works / Interview tips
Behavioral / Attitude Skills
Current Topics
Going through the company’s websites to know all the broad details

All the Students should participate in the Campus Selection Processes accordingly with full & serious preparation and make best use of the above available opportunities.

Note:

- 1. As a special case, companies visiting on the shared model will not be counted in the total 15 companies allowed for students as per the Placement Policy. The ‘Shared Day’ companies will be over and above on the allocated 15 companies.**
- 2. All the Core/Non-IT branch students who are getting selected in the ‘Shared Day’ Companies, are also eligible to appear for their respective core companies visiting in future, till they get placed. Hence, students should take advantage of Shared Day Companies.**

8th September 2020

We wish you all a wonderful Career ahead!

Dr. Hemant Mali
Asst. Director – Career Services
